

Hobe Sound, Florida

It is fitting to be reminded of the sacredness of the world and land in which we live. The earth is a temple signifying the glory of God, and it is appropriate that His gifts of nature and life be part of our worship.

The symbols depicted in these windows remind us of our *special* place in His mighty design: the golden sun, the sand, the palm, the water, the alligator, the fish, the crab and the turtle. All of these are gifts given for our use and are to be respected and preserved. We are but part of our great world of life and nature.

May our gift to others be a world enriched by their presence for ages to come.

"And so it happened. God looked at everything He had made, and He found it very good."
